Schemes of IREDA for power generation

4062. SHRI C. RAMACHANDRAIAH: Will the PRIME MINISTER be pleased to state:

(a) whether Indian Renewable Energy Development Agency (IREDA) has a scheme to finance renewable energy projects through Biomass Power including cogeneration system;

(b) if so, what schemes have been funded in this category since inception of IREDA;

(c) what are the schemes under active consideration; and

(d) the likely outlay for this sector in 1998-99?

THE MINISTER OF STATE IN THE MINISTRY OF RAILWAYS AND THE MINISTER OF STATE IN THE MINISTRY OF PARLIAMENTARY AFFAIRS AND THE MINISTER OF STATE IN THE MINISTRY OF PLANNING AND PROGRAMME IMPLEMENTATION (SHRI RAM NAIK): (a) and (b) Yes, Sir. Indian Renewable Energy Development Agency (IREDA) is financing projects for energy generation through biomass power including cogeneration. Details of the projects financed by IREDA, are given in the Statement [Refer to the Statement appended to Unstarred Question No. 4061.]

(c) A proposal of 12 MW capacity of bagasse based cogeneration project to be set up in Sitapur District in Uttar Pradesh is presently under consideration.

(d) An outlay of Rs. 67.00 crores has been allocated by IREDA during 1998-99 for providing loans for the projects under biomass power including cogeneration.

Wind farms financed by IREDA

4063. SHRI C. RAMACHANDRAIAH: Will the PRIME MINISTER be pleased to state:

(a) whether IREDA has financed wind farms in various States;

(b) which are the States where IREDA-financed wind farms are in operation;

(c) the States where IREDA-financed wind [illegible] construction;

(d) the total outlay for this sector; and

(e) the power being generated through IREDA-financed wind farms presently?

THE MINISTER OF STATE IN THE MINISTRY OF RAILWAYS AND THE MINISTER OF STATE IN THE MINISTRY OF PARLIAMENTARY AFFAIRS AND THE MINISTER OF STATE IN THE MINISTRY OF PLANNING AND PROGRAMME IMPLEMENTATION (SHRI RAM NAIK): (a) and (b) Yes, Sir. The wind farms financed by IREDA are in operation in the following States:

1. Tamil Nadu
2. Gujarat
3. Madhya Pradesh
4. Andhra Pradesh
5. Karnataka
6. Maharashtra

(c) IREDA financed wind farms are presently under implementation in the State of Andhra Pradesh.

(d) A total amount of Rs. 654.33 crores has so far been sanctioned by IREDA for wind farm sector.

(e) The wind farm projects of an aggregate capacity of 248 MW have been financed by IREDA and these projects are estimated to generate 391 MU of electricity annually.

Small hydro power plants financed by IREDA

4064. SHRI C. RAMACHANDRAIAH: Will the PRIME MINISTER be pleased to state:

(a) how many small hydro power plants has IREDA financed so far;

(b) what is the amount advanced by IREDA for small hydro power plants;

(c) what is the quantum of power being generated from small hydro power plants which have IREDA participation; and

(d) the details of the success of this scheme?

THE MINISTER OF STATE IN THE MINISTRY OF RAILWAYS AND THE MINISTER OF STATE IN THE MINISTRY OF PARLIAMENTARY AFFAIRS AND THE MINISTER OF STATE IN THE MINISTRY

OF PLANNING AND PROGRAMME IMPLEMENTATION (SHRI RAM NAIK): (a) to (d) Fifty-five small hydro power plants of an aggregate capacity of 222.43 MW have so far been sanctioned and an amount of Rs. 138.57 crores disbursed by IREDA, for these projects. Seventeen small hydro power plants of an aggregate capacity of 34.38 MW have been commissioned and these plants are estimated to generate about 36 MU of electricity annually. Remaining projects are scheduled for commissioning during 1998 and 1999.

Power from Ocean

4065. SHRI VAYALAR RAVI: Will the PRIME MINISTER be pleased to state:

(a) whether Government have made any study to produce power from Ocean;

(b) whether any such project was initiated in Tamil Nadu with U.S. collaboration; and

(c) if so, the details and the present status of the project?

THE MINISTER OF STATE IN THE MINISTRY OF RAILWAYS AND THE MINISTER OF STATE IN THE MINISTRY OF PARLIAMENTARY AFFAIRS AND THE MINISTER OF STATE IN THE MINISTRY OF PLANNING AND PROGRAMME IMPLEMENTATION (SHRI RAM NAIK): (a) Yes, Sir. The Ministry has supported feasibility studies in selected sites for producing power from ocean through ocean thermal energy conversion and tidal energy.

(b) and (c) A Memorandum of Understanding (MOU) was signed on 24.1.1994 between Sea Solar Power, Inc. of USA and Tamil Nadu Electricity Board/Tamil Nadu Energy Development Agency regarding 100 MW ocean thermal power project at the Off-shore of Kulasekarapattinam in Tamil Nadu. The proposal was for the establishment, operation and maintenance of the proposed project estimated to cost around US $ 250 million for the supply, erection and commissioning of 100 MW floating type ocean thermal energy conversion sea power plant. However, Tamil Nadu Electricity Board informed this Ministry in 1997 that the MOU stands cancelled, as decided by the Government of Tamil Nadu, as the project was not cost effective.

Ocean development studies

4066. SHRI VAYALAR RAVI: Will the PRIME MINISTER be pleased to state:

(a) whether Government have taken further initiative for Ocean development studies; and

(b) what are the new areas of research and the details thereof?

THE MINISTER OF STATE IN THE MINISTRY OF PERSONNEL PUBLIC GRIEVANCES AND PENSIONS AND THE MINISTER OF STATE IN THE MINISTRY OF FINANCE (SHRI R. JANARTHANAM): (a) Yes, Sir.

(b) Some of the major new areas of research proposed to be pursued during the 9th Five Year Plan period are as under :—

* Development and demonstration of shallow bed mining system upto 500m depth off Indian coast, as the first step towards mining of Pollymetalic Nodules, under a joint technology development project with external assistance and generation of a detailed technical report for development of technologies and hardware for mining of nodules from 6000 m. depth.
* Commissioning of a continuous metal extraction pilot plant as a joint project with M/s Hindustan Zinc Ltd for 4-metal recovery process of PMN with a capacity of 500 kg per day and generation of process data for future commercial plant capable of processing 1.5 million tons of nodules per year.
* Design and techno-economic viability study for a commercial metallurgical plant.
* Development of a new power module to improve efficiency of wave energy conversion incorporating impulse turbine with movable guide blades and a common shaft single turbine connected to the variable speed induction generator and testing it at the Wave Energy plant at Vizhinjam.
* Establishment of one MW pilot technology demonstration Ocean
